

City of Alexander City
Department of Public Works

MEMORANDUM

TO: Amanda Thomas, City Clerk & City Council Members
FROM: Gerard Brewer, Public Works Director and City Engineer
DATE: December 29, 2021
SUBJECT: Rebuild Alabama-City Cemetery Entrance & Coven Abbett Bridge

The City Council approved resolutions 19-94 and 21-113 in 2020, and 2021, respectively, to improve the entrance road at the City Cemetery. Progress has been made and we are nearing completion of a final design; however, results from the December 2021 Coven Abbett bridge inspection (across Elkahatchee Creek in Lake Martin) revealed flaking paint from the girders on the bridge. This bridge maintenance is more urgent in nature and the City Engineer is in the process of soliciting an estimate of cost to repair. After the City Engineer has an accurate estimate, he will update the council and make a recommendation at that time for updating this Transportation Plan.

The current Rebuild Alabama balance is \$178,000.00
