Subject: Addendum to Bid 23-09

Ladies and Gentlemen,

Questions regarding the Bi Annual Chemical Bid have been received. I have listed questions and answers below.

- **Is the previous contract being cancelled and is that why a new bid is being advertised? If the contract is being cancelled, is it just for the two chemicals listed in the current bid? Will you be bidding for any of the other products listed in the last bid? The previous bid has not been cancelled. The terms and conditions for all other chemicals remain in full effect until September 30th, 2023.** When the bid was opened on August 16, 2022, no vendor could meet the full one-year terms of the contract for these two chemicals. By Alabama Law, the City Council awarded the bid to the lowest priced vendor and granted permission for the contract length to be negotiated from a period of one year to six months ending March 31st, 2023.
- **Can you verify the length of the contract term and any extension options if applicable?** This bid will be for a six-month term only. The two chemicals addressed will be part of the annual chemical bid to be release in the August 2023 timeframe.
- **Will all deliveries be split loads? In what case would a split load occur?** All deliveries made to Sugar Creek and Coley Creek facilities will be split loads (unless otherwise noted when ordering), with the first drop being at Coley Creek and the remainder being dropped at Sugar Creek. All loads delivered to Adams WTP will not be split.
- **Can I get a clarification on the anticipated annual usage rate?** The amount of 1170,000 gallons is incorrect. The amount should read approximately 400,000 gallons annually.

Sincerely,

Miles Hamlett
Purchasing Director
